Annual Index

First Quarter 1–47
Second Quarter 49–84
Third Quarter 85–124
Fourth Quarter 125–171

SUBJECT INDEX

ANCHOR BOLTS
Design Aid: Anchor Bolt Interaction of Shear and Tension Loads — *Scacco, Mario N.* 137
High-Strength Bolts for Bridges — *Verma, Krishna K. Fred R. Beckman* 4

BEAMS
Flexural Strength of WT Sections — *Ellifritt, Duane S., Gregory Wine, Thomas Sputo, and Santosh Samuel* 67
The Significance and Application of C_b in Beam Design — *Zuraski, Patrick D.* 20

BRACING
Forces on Bracing Systems — *Nair, R. Shankar* 45

BRIDGES
High-Strength Bolts for Bridges — *Verma, Krishna K. Fred R. Beckman* 4

BUCKLING
An Equivalent Radius of Gyration Approach to Flexural-Torsional Buckling for Singly Symmetric Sections — *Bakos, Jack D. Jr. and James A. O'Leary* 26

BUILT-UP MEMBERS
Analytical Criteria for Stitch Strength of Built-up Compression Members — *Aslani, Farhang and Subhash C. Goel* 102

COLUMNS
A Novel Approach for *K* Factor Determination — *Lui, Eric M.* 150
Simple Equations for Effective Length Factors — *Dumonteil, Pierre* 111

COMPUTERS
Computers and Steel Design — *McGuire, W.* 160

CONNECTIONS
An Experimental Study of Block Shear Failure of Angles in Tension — *Epstein, Howard I.* 75
Fast Check for Block Shear — *Burgett, Lewis B.* 125
Reliability of Rotational Behavior of Framing Connections — *Rauscher, Thomas R. and Kurt H. Gerstle* 12
Strength and Serviceability of Hanger Connections — *Thornton, W. A.* 145
Structural Details To Increase Ductility of Connections — *Blodgett, Omer W.* 132

ERECTION
Distortion-Induced Cracking During Transit — *Roddis, W. M. Kim* 85

FRAMES
A Method for Incorporating Live Load Reduction Provisions in Frame Analysis — *Ziemian, Ronald D. and William McGuire* 1

LOAD AND RESISTANCE FACTOR DESIGN
Load and Resistance Factor Design of Welded Box Section Trusses — *Packer, Jeffrey A., J. E. (Ted) Henderson, and Jaap Wardenier* 92

SINGLE-ANGLE
Eccentrically Loaded Steel Single Angle Struts — *Adluri, Seshu Madhavarao and Murty K. S. Madugula* 59
Non-Slender Single Angle Struts — *Elgaaly, M., W. Davids, and H. Dagher* 49

TUBULAR SECTIONS
Load and Resistance Factor Design of Welded Box Section Trusses — *Packer, Jeffrey A., J. E. (Ted) Henderson, and Jaap Wardenier* 92

VIBRATION
Application of Tuned Mass Dampers To Control Vibrations of Composite Floor Systems — *Webster, Anthony C. and Rimas Vaicaitis* 116
Design Chart for Vibration of Office and Residential Floors — *Hatfield, Frank J.* 141

COMPUTERS
Computers and Steel Design — *McGuire, W.* 160

CONNECTIONS
An Experimental Study of Block Shear Failure of Angles in Tension — *Epstein, Howard I.* 75
Fast Check for Block Shear — *Burgett, Lewis B.* 125
Reliability of Rotational Behavior of Framing Connections — *Rauscher, Thomas R. and Kurt H. Gerstle* 12
Strength and Serviceability of Hanger Connections — *Thornton, W. A.* 145
Structural Details To Increase Ductility of Connections — *Blodgett, Omer W.* 132

ERECTION
Distortion-Induced Cracking During Transit — *Roddis, W. M. Kim* 85

FRAMES
A Method for Incorporating Live Load Reduction Provisions in Frame Analysis — *Ziemian, Ronald D. and William McGuire* 1

LOAD AND RESISTANCE FACTOR DESIGN
Load and Resistance Factor Design of Welded Box Section Trusses — *Packer, Jeffrey A., J. E. (Ted) Henderson, and Jaap Wardenier* 92

SINGLE-ANGLE
Eccentrically Loaded Steel Single Angle Struts — *Adluri, Seshu Madhavarao and Murty K. S. Madugula* 59
Non-Slender Single Angle Struts — *Elgaaly, M., W. Davids, and H. Dagher* 49

TUBULAR SECTIONS
Load and Resistance Factor Design of Welded Box Section Trusses — *Packer, Jeffrey A., J. E. (Ted) Henderson, and Jaap Wardenier* 92

VIBRATION
Application of Tuned Mass Dampers To Control Vibrations of Composite Floor Systems — *Webster, Anthony C. and Rimas Vaicaitis* 116
Design Chart for Vibration of Office and Residential Floors — *Hatfield, Frank J.* 141

AUTHOR INDEX

Adluri, Seshu Madhavarao and Murty K. S. Madugula
Eccentrically Loaded Steel Single Angle Struts 59

Aslani, Farhang and Subhash C. Goel
Analytical Criteria for Stitch Strength of Built-up Compression Members 102

Bakos, Jack D. and James A. O'Leary
An Equivalent Radius of Gyration Approach to Flexural-Torsional Buckling for Singly Symmetric Sections 26

Beckman, Fred R.
See Verma, Krishna K. 4

Blodgett, Omer W.
Structural Details To Increase Ductility of Connections 132

Burgett, Lewis B.
Fast Check for Block Shear 125

Dagher, H.
See Elgaaly, M. 49

Davids, W.
See Elgaaly, M. 49

Dumonteil, Pierre
Simple Equations for Effective Length Factors 111

Elgaaly, M., W. Davids, and H. Dagher
Non-Slender Single Angle Struts 49

Ellifritt, Duane S., Gregory Wine, Thomas Sputo, and Santosh Samuel
Flexural Strength of WT Sections 67

Epstein, Howard I.
An Experimental Study of Block Shear Failure of Angles in Tension 75

Gerstle, Kurt H.
See Rauscher, Thomas R. 12

Goel, Subhash
See Aslani, Farhang 102

Hatfield, Frank J.
Design Chart for Vibration of Office and Residential Floors 141

Henderson, J. E. (Ted)
See Packer, Jeffrey A. 92

Lui, Eric M.
A Novel Approach for *K* Factor Determination 150

Madugula, Murty K. S.
See Adluri, Seshu 59

McGuire, W.
Computers and Steel Design 160

McGuire, William
See Ziemian, Ronald D. 1

Nair, R. Shankar
Forces on Bracing Systems 45

O'Leary, James A.
See Bakos, Jack D. 26

Packer, Jeffrey A., J. E. (Ted) Henderson, and Jaap Wardenier
Load and Resistance Factor Design of Welded Box Section Trusses 92

Rauscher, Thomas R. and Kurt H. Gerstle
Reliability of Rotational Behavior of Framing Connections 12

Roddis, W. M. Kim
Distortion-Induced Cracking During Transit 85

Samuel, Santosh
See Ellifritt, Duane S. 67

Scacco, Mario N.
Design Aid: Anchor Bolt Interaction of Shear and Tension Loads 137

Sputo, Thomas
See Ellifritt, Duane S. 67

Thornton, W. A.
Strength and Serviceability of Hanger Connections 145

Vaicaitis, Rimas
See Webster, Anthony C. 116

Verma, Krishna K. and Fred R. Beckman
High-Strength Bolts for Bridges 4

Wardenier, Jaap
See Packer, Jeffrey A. 92

Webster, Anthony C. and Rimas Vaicaitis
Application of Tuned Mass Dampers To Control Vibrations of Composite Floor Systems 116

Wine, Gregory
See Ellifritt, Duane S. 67

Ziemian, Ronald D. and William McGuire
A Method for Incorporating Live Load Reduction Provisions in Frame Analysis 1

Zuraski, Patrick D.
The Significance and Application of C_b in Beam Design 20
